Country Supplies has been a leading landscaping supplier for over 30 years, proud of its team of experts who are always on hand to share knowledge and advice. They have built their reputation and loyal customer base by reliably delivering high quality, consistent products, economically to both site and home.

This means the actual stone delivered may differ from the sample or picture(s) shown, if you are unsure whether natural stone will suit your area please let us know and we will do our very best to help.

With our unrivalled product range, and expansive stock holding, we can meet any landscaping demand from our customers, and to ensure we meet all your landscaping needs, our diverse fleet of vehicles can deliver to your door within a 60-mile radius on your chosen day. Outstanding customer service is at the very heart of what we do.

We are constantly evolving our Shana display area so you can see all our materials up close to help make your decisions easy.

Our in house experts are ready to help answer your questions and provide you with samples when you visit.

Natural Stone Range

Natural stone, as the name implies are products of nature and therefore each piece is unique, consisting of natural patterns, veining and colour variation.

This means the actual stone delivered may differ from the sample or picture(s) shown, if you are unsure whether natural stone will suit your area please let us know and we will do our very best to help.

Natural stone can look different when wet therefore, we urge you to see your chosen product both wet and dry before purchasing. You're welcome to visit our showroom in Walters Ash or request samples.

All displays and samples provided are to give you an overall idea of variation in both veining and colour. Please note the colours shown within the brochure are as accurate as photography and printing will allow.

The Country Supplies natural stone range is ethically sourced from India and specially selected to suit the needs of our customers.

Natural Stone Finishes

Calibrated - This means that the slabs have been cut to a consistent thickness. Calibrated sandstone paving is easier to lay than non-calibrated stone as it eliminates any large variations in thickness between each slab.

Riven - This stone has a natural surface derived from when the stone is quarried and split, leaving an irregular surface; this is paving in its most natural form.

Sawn Edge - All 4 edges of these paving units are completely smooth and clean-cut. A sawn edge is incredibly modern and has a contemporary aesthetic.

Tumbled - This stone has softened edges and a weathered surface resulting in a more aged look. Tumbled is well suited to period or older properties.

Sandblasted - This stone has a level but textured surface. Removing the riven surface in this way creates an 'orange peel effect', which results in a much more gripped finished surface.

Leather - This stone has a lightly stippled surface and machine-cut edges. Very similar to the sandblasted finish but with a slightly softer surface, this gives it a very contemporary feel.

Flamed - The surface of this stone has undergone an intense flame this bursts the crystals which gives a high grip level on the stone surface and a unique texture.

Smooth - Clean lines, straight edges and smooth surfaces are perfect for contemporary projects. Our smooth finish is also known as honed.

Sandstone Paving

Sandstone is a classic sedimentary rock composed mainly of sand sized grains. Sandstone can be any colour, but is often made up of any combination of; beiges, yellows, pinks, greys and tans.

Sandstone paving is highly weather resistant making it perfect for many gardens.

Its ability to maintain its age and appearance over time is tremendous.

Riven Sandstone

Our riven sandstone is one of our most popular ranges. Consisting of six colours, our range offers a wide variety of rich, characterful colours to suit every style and garden type.

We have a wide selection of options in this range which allows you to be as creative as you like. We ensure there is a perfect sandstone for any garden.

Riven Sandstone Accessories:

Circle Kits | Setts | Bullnose Steps can be found on pages 19-21

Tumbled Sandstone

Our tumbled sandstone range offers a more authentic worn-in look suited to more traditional garden projects. Featuring a softer smoother look this paving is ideal for period properties.

We also have smaller cobbles in our tumbled range available in the popular colour choices Forest Glen & Twilight. These cobbles are thicker at 30mm and when laid correctly can make an elegant statement on driveways for domestic use, feature pathways, courtyards and more.

Accessories are available in our Riven finish.

Free product sample

Our products are best seen in person, so why not order a sample from us?

We have these materials on display at our Shana site.

Our samples are free of charge, however we do charge a small postage fee for each sample.

Sawn Edge Sandstone

Our sawn edge sandstone paving offers a more contemporary finish but still retains the traditional character of a natural stone patio. The surface finish of the stone is naturally riven however the edges have been sawn to give a square straight edge for that more modern aesthetic.

Accessories are available in our Riven finish.

Harvest Sandstone

Harvest Sandstone paving features a beautiful smooth finish and carries warm delicate peach and apricot hues. This paving has gentle veining running throughout, sawn six sides and honed for a finish perfect for both contemporary and traditional projects that desire a luxurious aesthetic.

Yorkstone Paving

New Riven Yorkstone

This is premium New Riven Yorkstone paving, sourced from the best quarries the UK has to offer. Yorkstone is one of the most iconic sandstone paving choices having been used for centuries for its hard wearing qualities. Most often used on projects that require a traditional finish this stone is filled with character.

New Sawn Yorkstone

Our New Sawn Yorkstone paving features a smooth uniform finish perfect for contemporary projects that want to utilise the best in british materials. This select Yorkstone has sawn edges to create clean crisp lines in your garden designs.

New Aged Yorkstone

New Aged Yorkstone paving carries all the incredible character of reclaimed Yorkstone having undergone distressing and weathering processes.

Yorkstone Accessories:

Yorkstone Setts can be found on page 21

Limestone Paving

Limestone is a natural material made from pressurised sediment under the sea.

It is a durable natural stone and comes in a range of colours due to the different deposits that were in the sediment at the time it was formed.

Limestone is a dense material and still continues to be one of the most reliable paving options on the market today.

Sawn Edge

Our sawn edge limestone offers an exceptional aesthetic with its dramatic colours and clean lines. The sawn edges give a clean-cut look that makes it suited to more modern settings, unlike its tumbled counterpart.

Egyptian Limestone

Country Supplies Desert Sand and Haze Egyptian Limestone Paving have been honed, tumbled, and acid washed to create a stunning smooth finish. Desert Sand displays a range of creamy beige shades whilst Desert Haze features a combination of grey tones.

These beautiful colour palettes are accompanied by occasional quartz veining and potentially a plethora of fossils. Our Desert Sand and Haze Egyptian Limestone Paving are suited to both traditional and contemporary garden design.

Azpects EasyJoint

EasyJoint is a very quick, effective and aesthetically pleasing way to fill joints between natural paving materials. As the name implies it is easy to use, by simply soaking the paving with water before commencing and then simultaneously sweeping and washing the compound into the joints, letting the water take the strain.

Size: 12.5kg

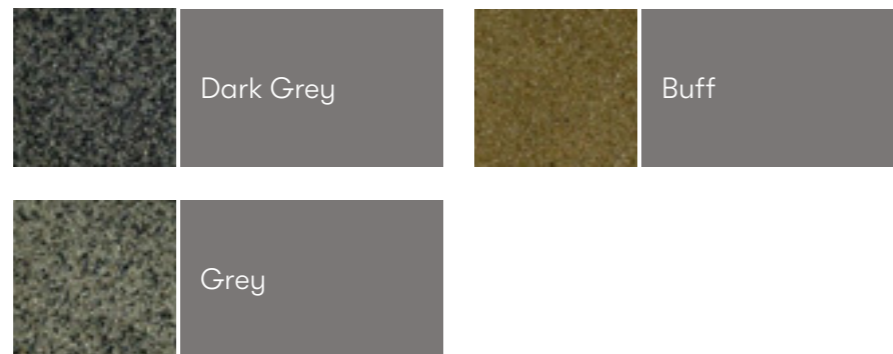

Joint-It

Neutral, Grey, Dark Grey

Ready to use paving jointing mortar, ideal for jointing natural stone. Rain or shine Joint-It goes in fine. Ready to use from the tub, no mixing, no second part to stir in, just open and use, simply brush in.

Size: 20kg

Azpects Natural Stone Paving Sealer

Azpects Ultimate Sealer 3 Litres

Azpects Ultimate sealer is the best water-based Sealant and Protector available. Ultimate is perfect for natural stoner and concrete paving, garden ornaments, flowerpots, etc.

Size: 3 Litres

The toughest and longest-lasting protection

- Ultimate protection for natural stone and concrete
- Exceptionally hard-wearing and durable
- Repels stains
- Resists algae and fungal growth
- Non-solvent and non-toxic
- Virtually invisible
- Impregnating sealer, apply second coat wet-on-wet

Coverage: 3 litres seals up to 18m² based on one coat, depending on surface porosity

Azpects Ultimate Sealer 3 Litres

Seals, enhances and enriches colour.

EASYSeal Slate & Limestone is an advanced water-based high-performance sealer using the latest technology to provide a waterproof, breathable, transparent yet durable seal to limestone and slate. Solvent free and easy to use, EASYSeal Slate & Limestone helps to repel dirt and stains and inhibits the growth of moss and algae. For use only on slate or limestone. To enhance other porous natural stone types, use EASYSeal Sandstone Sealer & Enhancer.

Size: 5 Litres

- Resists fungal growth and staining.
- Improves slip resistance by keeping contaminants away.
- Protects and waterproofs.
- Transparent sheen finish.
- Quick drying.

Coverage: Up to 25m²

Porcelain Range

Porcelain Paving is an increasingly popular choice in the world of landscaping.

This product offers exceptional durability which allows you to have a low-maintenance patio combined with the beautiful aesthetic of natural stone.

Because it looks so smooth, porcelain paving can often look slippery, but rest assured, it is a safe option for your next patio project.

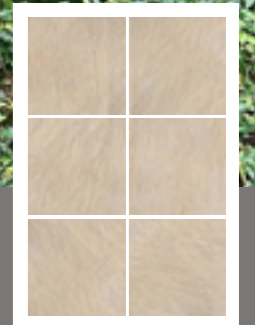

Every product in the Country Supplies porcelain paving range for external use is R11 slip-rated, making it perfect for outdoor use where surfaces are prone to becoming occasionally wet due to weather.

Porcelain Advantages:

- ✓ Frost Resistant
- ✓ R11 Anti Slip Rating
- ✓ Easy Maintenance
- ✓ No Sealing Necessary
- ✓ Highly Resistant to Algae and Mould
- ✓ Resistant to Abrasions and Wear

Pietra

This range offers an ever-so-perfect take on nature, giving rise to a new generation of original surfaces. This is Pietra, our contemporary stone effect tile series suitable for both outdoor patios and terraces. Wonderfully eclectic, extraordinarily hard wearing, ceramic material takes centre stage in architectural projects.

Porcelain Accessories

To give your garden design the ultimate finishing touches, why not look through our bespoke Porcelain Accessories. With our porcelain, you can achieve the perfect finish by using detailed pieces like our Bullnosed Steps, go more contemporary with some Mitred Edgings and have matching Wall Copings to blend in with your newly laid patio. We have just invested in our own in house bullnosing work shop to reduce costs and lead time.

Mitred Edgings

(Pre-order only)

Steps with mitred edges offer that more contemporary look, lots of profiles on offer.

Copings

(Pre-order only)

Stone that forms the top of a wall or building, lots of profiles on offer.

Bullnosed Steps

(Pre-order only)

Lots of profiles offered to achieve that special edge look.

Steintec Tufftop Jointing Mortar

Tufftop is a high-performance jointing mortar suitable for all types of natural stone and modular paving. When thoroughly mixed, it becomes a plastic, free-flowing slurry grout which is easy to work with and makes pavement surface cleaning very straightforward. Its natural ingredients prevent the shrinkage problems associated with the polymer additives used by other manufacturers, and with its optimum elastic modulus, high performance is achieved without compromise. Its all-round proven quality, ease of use and good economy are unrivalled.

Size: 25kg

NO REFUNDS, EXCHANGE OR RETURNS ON THIS PRODUCT.

Aspects EASYGrout

EASYGrout is a high-quality slurry grout for use on porcelain and most other paving materials.

EASYGrout mixes readily with water to give a highly flowable joint filling and grouting mortar ideal for use on floor surfaces where a high early strength, resilient, compact grout joint is needed, particularly in areas subject to early and sustained trafficking. It is available in three colours and is suitable for grouting joints internally and externally around ceramic, porcelain and natural stone.

15kg

Aspects EASYSeal

A simple-to-use professional-grade water-based, non-solvent, solution which enriches, boosts and enhances the natural colour of your Sandstone paving without giving it a false shiny finish.

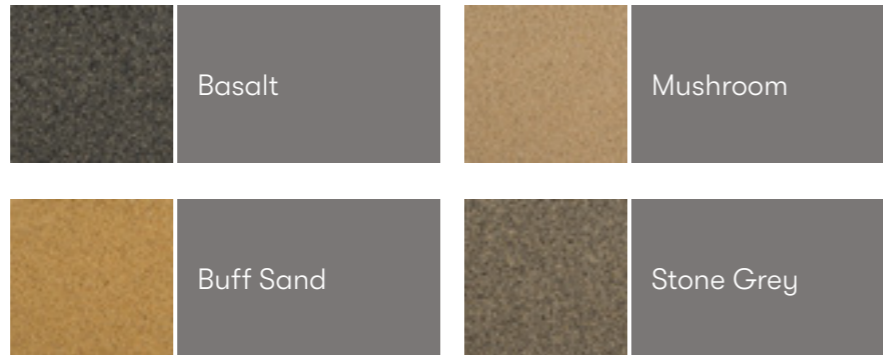

Aspects EasyJoint

EasyJoint is a very quick, effective and aesthetically pleasing way to fill joints between natural paving materials. As the name implies it is easy to use, by simply soaking the paving with water before commencing and then simultaneously sweeping and washing the compound into the joints, letting the water take the strain.

Size: 12.5kg

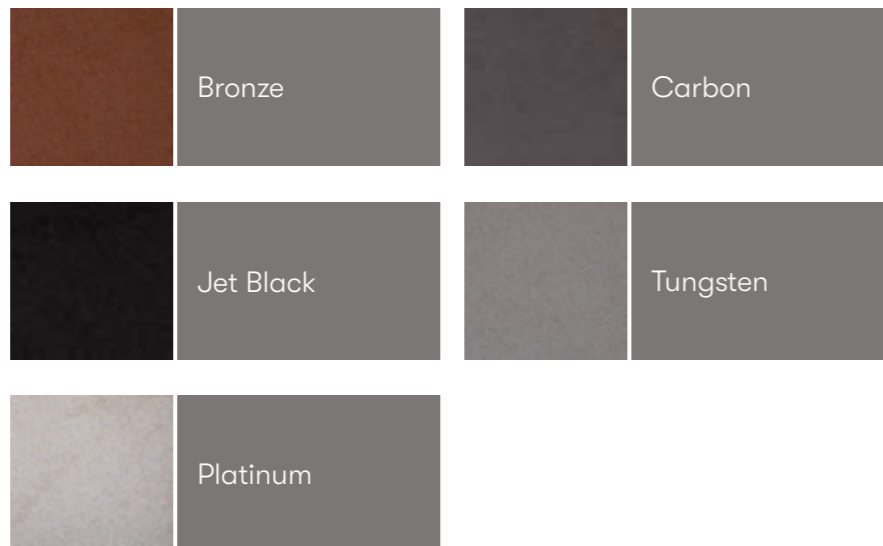

Aspects EASYJoint Select

Ready to use paving jointing mortar, ideal for jointing natural stone. Rain or shine Joint-It goes in fine. Ready to use from the tub, no mixing, no second part to stir in, just open and use, simply brush in.

Size: 12.5kg

Ultra Scape Pro-Prime Slurry Primer

UltraScape Pro Prime stops efflorescence & provides a secure bond between paving slabs & bedding mortar, particularly recommended when laying porcelain due to its non-porous nature. Pro-Prime Slurry has a unique blend which enables it to adhere to porcelain and create a stronger adhesion with the mortar bed.

Size: 20kg

Size: 20kg

UltraTile ProFlex

UltraTile ProFlex SPES is a single part, standard setting, flexible adhesive for wall and floor tiles. It is specially formulated with extended workability, enhanced adhesion and flexibility, making it ideal for areas where slight movement or vibration can occur. Classified as S1 following EN 12004 it has a high level of deformation for greater tolerance to movement. Suitable for use with Natural Stone and Porcelain Paving.

Vande Moortel

Vande Moortel clay pavers are an authentic paving material full of character, fantastic for private and public projects.

High-quality pavers with character can add an extra dimension to any outside space. The wide range of colours, formats and bonds create endless possibilities for any designer.

Clay pavers can easily be combined with other materials and their natural character means that they will fit harmoniously in any environment. They also have a long lifespan and can be reused as a material.

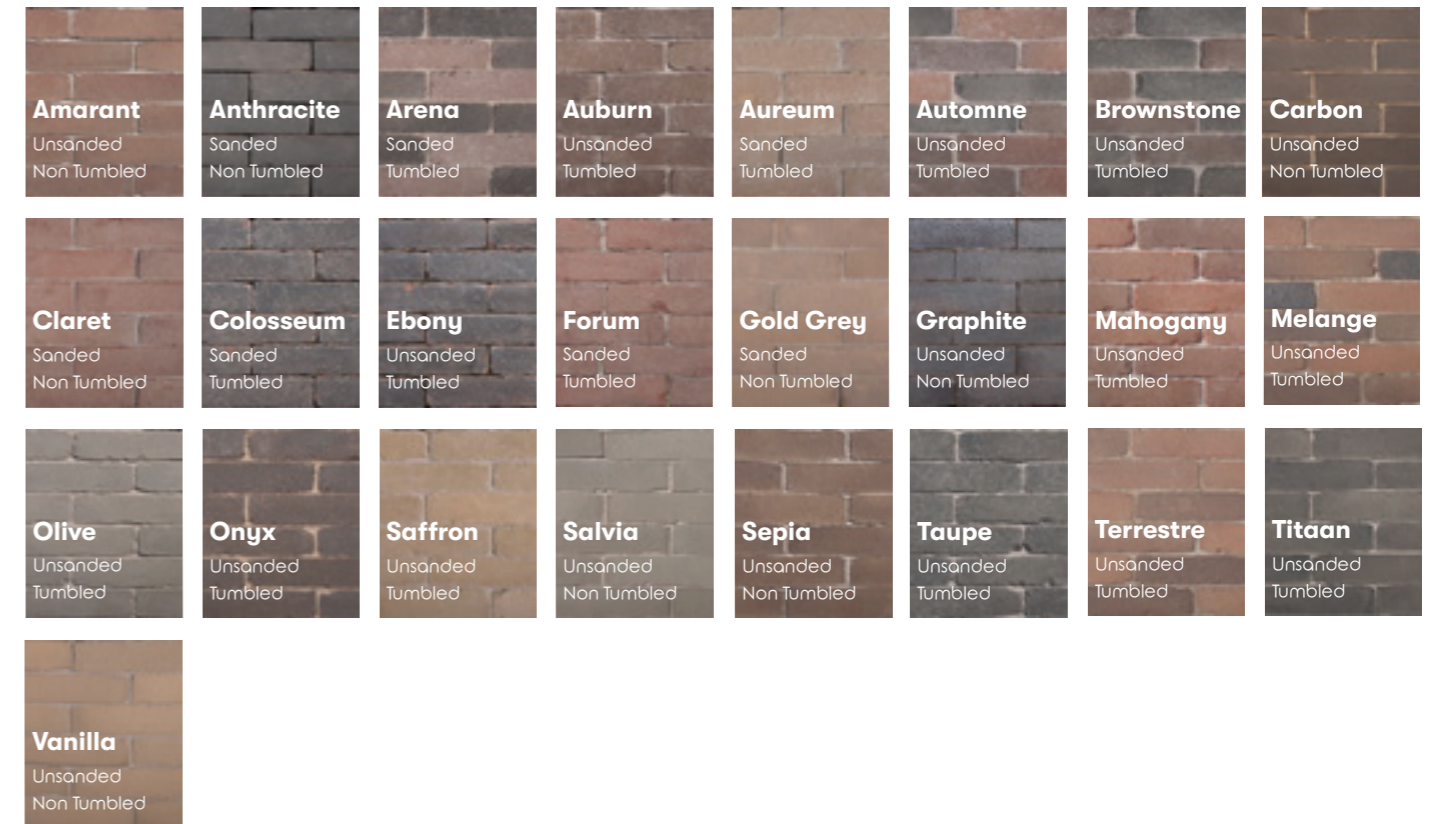

The clay paver is an authentic paving material which is frequently used and full of character. It is a product which is systematically used to create not only attractive garden paths, borders, steps, terraces and driveways but also public squares, roads and pavements.

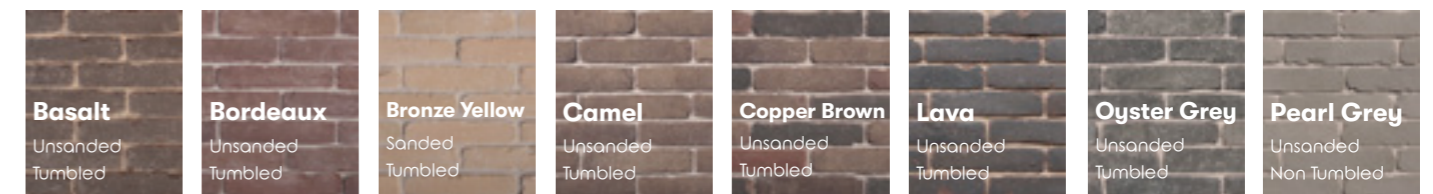

Septim A

Within our Septim A series of clay pavers, there are various types of finish to choose from, including sanded or unsanded and tumbled or non-tumbled. Vande Moortel's characteristic grey braised colours are also available within this range. All the pavers from this series have been rated as class A which means that they have a very low level of water absorption and are frost resistant. All the clay pavers from our SeptimA series are in the ecological Brick7 format. With a height of 7 centimetres, this format ensures the optimum use of raw materials and energy during the production process.

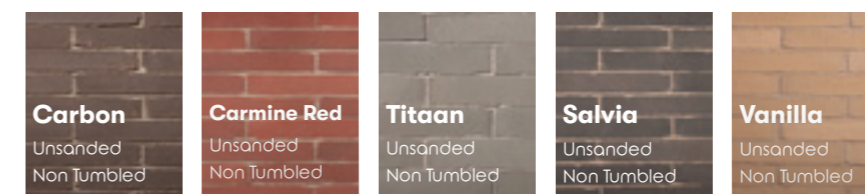

Bespoke blends can be created combining multiple colours from packs. Call our team to discuss your project requirements and order samples.

Ancienne Belgique

Elegantia

Rustic Clay Pavers

Ideal for courtyard style spaces, our rustic clay pavers enable even small spaces to be stylish and classic. They're also perfect for creating circles, and smaller feature areas within a larger patio. The Cottage pavers feature mixed shades of dark and light fired Terracotta whilst Tudor is made up of mellow Terracotta with lighter tones. We do not recommend using these clay pavers for driveway applications. Paver size is 210x100mm

Schellevis

Schellevis specialises in sustainably manufacturing a vast range of concrete paving and more contemporary elements.

These materials all work together to create incredibly modern spaces including driveways when using 7cm thickness or more.

SHELLEVIS

Slabs

Schellevis slabs are recognisable at a glance, from their distinctive, open structure. The typical traditional Dutch appearance is visible both on the side and the top. Combining the best of natural raw materials and colouring agents with a special production process and Dutch craftsmanship gives the slabs their unique and timeless character.

Slab Sizing		
Size (mm)	Thickness (mm)	Colours
200 x 200	50	GR, AN, CA, RB, CR
200 x 200	70	GR, AN, CA
400 x 400	50	GR, AN, CA
400 x 400	70	GR, AN, CA
500 x 500	50	GR, AN, CA, TA, RB, CR
500 x 500	70	GR, AN, CA, TA
600 x 400	50	GR, AN, CA
600 x 400	70	GR, AN, CA
600 x 600	50	GR, AN, CA, TA, RB, CR
600 x 600	70	GR, AN, CA, TA

Trapezium Slabs

Using trapezium slabs, you can create unique straight or curvaceous passageways. Their characteristic shape emphasises sight lines in pathways and gives a creative feel to your outdoor space.

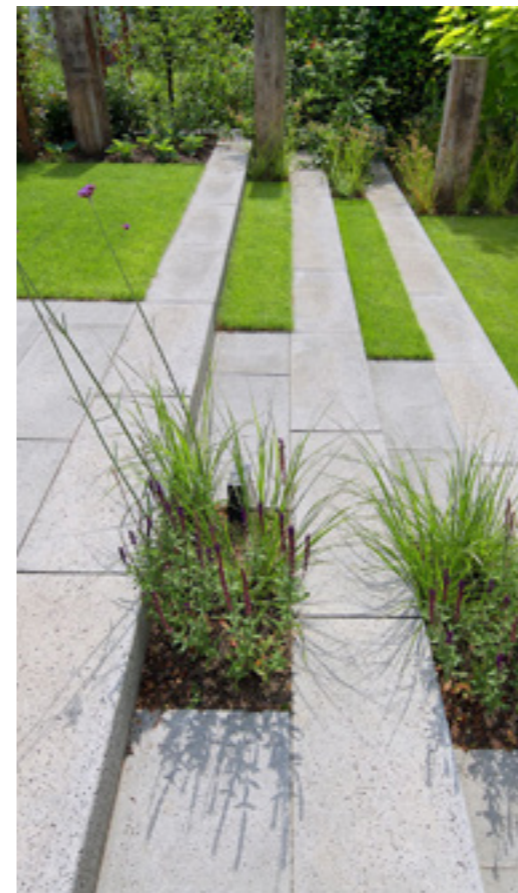

Trapezium Slab Sizing		
Size (mm)	Thickness (mm)	Colours
1200 x 300 / 600	80	GR, AN

Large Format Slabs

These slabs are distinctive, thanks to their robust appearance. Large surfaces have visibly less joints and the minimalistic lines ensure a peaceful outdoor space. Most dimensions can also be used vertically. Thanks to their recognisable appearance and structure, the large format slabs can easily be combined with other products in the Schellevis range. There are endless material combinations to use in your designs including Vande Moortel clay pavers, corten steel and timber.

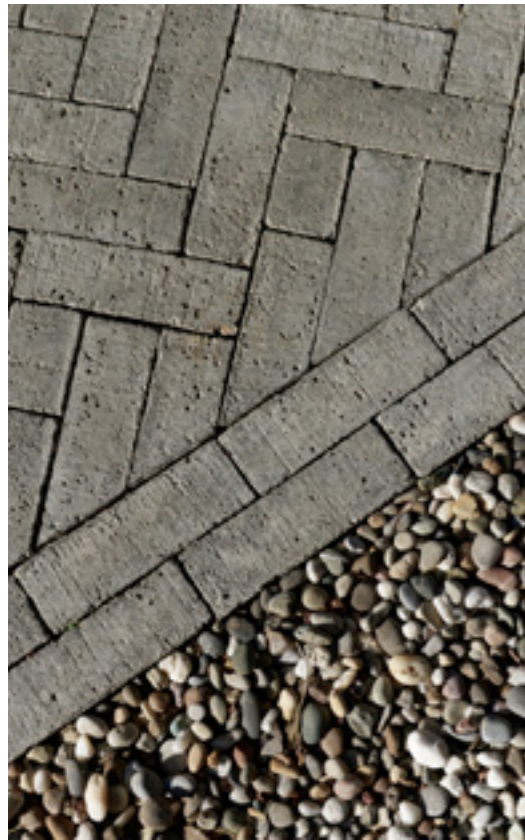

Large Format Slab Sizing		
Size (mm)	Thickness (mm)	Colours
400 x 800	50	GR, AN, CA
800 x 800	50	GR, AN, CA, RB, CR
800 x 800	100	GR, AN, CA
1000 x 1000	50	GR, AN, CA, RB, CR
1000 x 1000	80	GR, AN, CA, TA
1000 x 1000	100	GR, AN, CA
1000 x 1000	120	GR, AN, CA
1200 x 600	70	GR, AN, CA
1200 x 1200	70	GR, AN, CA
1200 x 1200	120	GR, AN, CA
1500 x 1200	100	GR, AN, CA, TA
2000 x 500	100	GR, AN, CA, TA
2000 x 1000	100	GR, AN, CA, TA
2400 x 600	120	GR, AN
2400 x 1200	120	GR, AN, CA

Curb Stones

Schellevis elongated curb stones are often used to divide paving from planting. Containment is also necessary to help prevent paving from subsiding. The use of reinforcement makes sure the curb stones can be used vertically too. You can use these to create an elevation of edge or to edge a border in your garden.

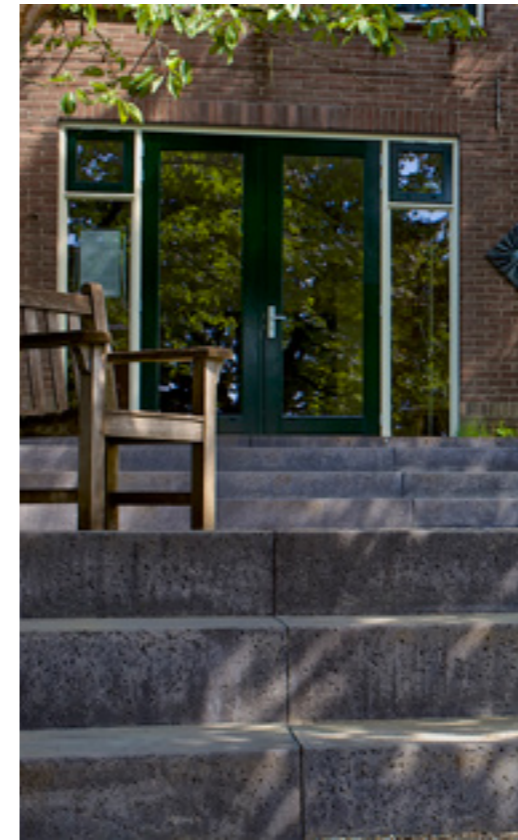

Curb Stone Sizing		
Size (mm)	Thickness (mm)	Colours
1000 x 200	50	GR, AN, CA, TA, RB, CR
1000 x 200	70	GR, AN, CA
1000 x 300	50	GR, AN, CA
1000 x 300	70	GR, AN, CA
1000 x 400	50	GR, AN, CA
1000 x 400	70	GR, AN, CA
1000 x 500	50	GR, AN, CA
1000 x 500	70	GR, AN, CA

Block Pavers

These block pavers are ideal for creating driveways and patio's. You can also use these as edging or as a decorative connection. These could be mosaics with a herringbone or stretcher bond for example.

Block Pavers Sizing		
Size (mm)	Thickness (mm)	Colours
210 x 70	80	GR, AN, CA, TA, RB, CR
150 x 50	70	GR, AN
400 x 100	100	GR

Steps

These steps are available in two models. The block model has a slightly rounded top on one side. You also have the L-shaped model which has a short upstanding edge on the top. These are both fantastic for bridging between elevations in gardens.

Curb Stone Sizing		
Size (mm)	Thickness (mm)	Colours
1000 x 370	150	GR, AN, CA, TA, CR
500 x 370	150	GR, AN, CA
600 x 600 Internal Corner 37	150	GR, AN, CA
600 x 600 Internal Corner 37	150	GR, AN, CA
1000 x 400	200	GR, AN, CA, RB
500 x 400	200	GR, AN, CA
600 x 600 Internal Corner 40	200	GR, AN, CA
600 x 600 Internal Corner 40	200	GR, AN, CA
1000 x 400	150	GR, AN, CA

Grass Pavers

Concrete grass pavers help drain rainwater naturally and sustainably whilst maintaining their aesthetically pleasing appearance.

Grass Pavers Sizing		
Size (mm)	Thickness (mm)	Colours
357 x 357 Hexagon	70	GR, AN
400 x 100 With Nibs 50 x 60	100	GR

Stackable Elements

Schellevis stackable elements and concrete sleepers can be used in several ways in your garden design. Use them to create a wall, a border or install them upright to make a palisade. Both products are available in a variety of sizes and colours.

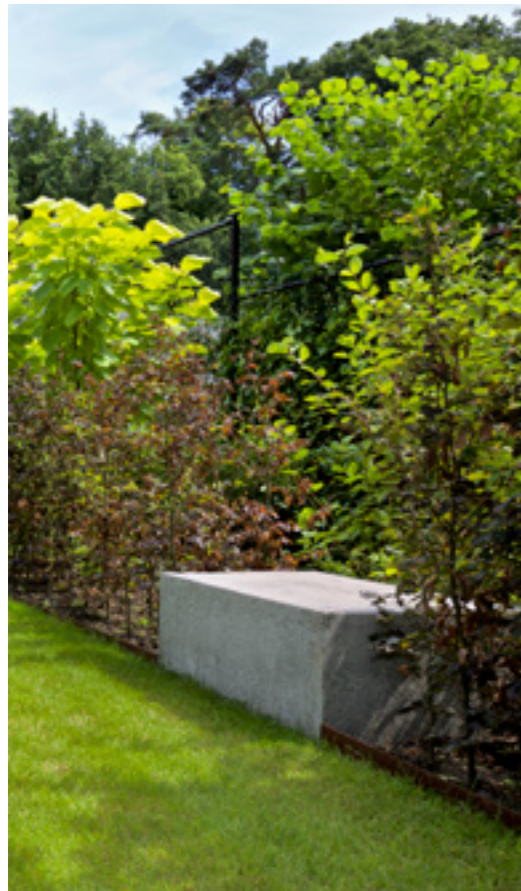

Stackable Elements Sizing		
Size (mm)	Thickness (mm)	Colours
750 x 150	50	GR, AN, CA, TA
1000 x 200	70	AN
1000 x 200	50	GR, AN, CA
1000 x 200 Sleeper with Bevelled Edge	70	GR, AN, CA

Pool Copings

Schellevis concrete pool copings are essential when creating a pool that flows seamlessly. All concrete copings have a rounded finish and are non-slip making for a safe yet luxurious space surrounding all swimming pools.

Curb Stone Sizing		
Size (mm)	Thickness (mm)	Colours
1000 x 400	50	GR, AN, CA, TA, CR
1000 x 1000	50	GR, AN, CA
1000 x 400 Left Mitred Corner Piece	50	GR, AN, CA, TA, CR
1000 x 400 Right Mitred Corner Piece	50	GR, AN, CA, TA, CR
1000 x 1000 Corner Piece	50	GR, AN, CA

Seating Elements

Use Schellevis seating elements to create unique relaxation spaces. These are ideal for both gardens and public outdoor spaces. This low-maintenance garden furniture is available in a variety of shapes, sizes and colours.

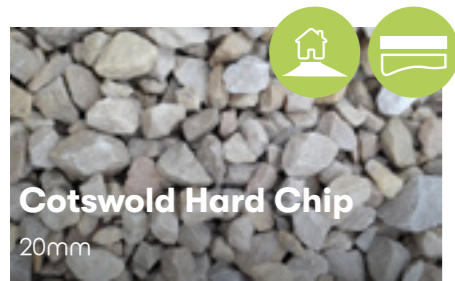

Curb Stone Sizing		
Size (mm)	Thickness (mm)	Colours
1000 x 600 Seat	400	GR, AN, CA

2000 x 600 Seat	400	GR, AN, CA
1900 x 500 Base	150	GR, AN, CA
500 x 500 Cube Seat	500	GR, AN, CA

Decorative Stone

Achieve a beautiful outdoor space with our excellent selection of stones, gravel and chippings.

Effortlessly you can create a stylish space in your garden, round boarders and pots whilst bulk bags are a great choice for larger projects like driveways. Plenty of choice of colours and styles.

Cotswold Hard Chip
20mm

Cotswold Hard Chip is a light cream, angular Limestone chipping, which when wet is a shade darker.

Cotswold Flat
6, 10 & 20mm

Cotswold Flat is a light cream, rounded and flat Limestone shingle, which when wet is a shade darker.

Derbyshire Peakstone
20mm

Derbyshire Peakstone is a grey angular chipping which deepens in colour when wet, ideal for that contemporary look.

Red Granite
14mm

Red Granite is a very attractive red angular chipping, which deepens in colour when wet.

Green Granite
14mm

Green Granite is a dark green chipping, which deepens in colour when wet.

Silver Grey Granite
14mm

Silver Grey Granite is an angular grey coloured chipping with flecks of black, which deepens in colour when wet.

Apricot
14-22mm

Apricot is an attractive cream, orange and white gravel, which deepens in colour when wet. The 14-22mm gravel chippings are supplied washed.

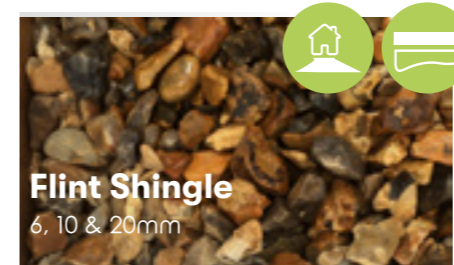

Dove Grey
8-16mm

Dove Grey Pebbles are a naturally shaped Quartz pebble that is a grey and brown colour, which deepens when wet.

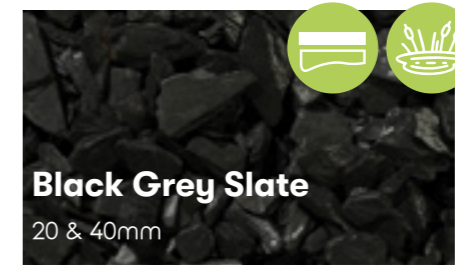

Staffordshire Pink
14mm

Staffordshire Pink is an angular gravel with an attractive mix of pinks and browns, which darken in colour when wet.

Flint Shingle
6, 10 & 20mm

Natural flint is an attractive blend of natural colours including light browns and warm greys making it an ideal choice for a variety of projects.

Black Grey Slate
20 & 40mm

This natural, premium Welsh Slate is mostly dark grey to black when wet and dark grey to mid-grey when dry. This beautiful flat and angular slate is available in both 20mm and 40mm.

Blue Slate
20 & 40mm

Blue Slate is a beautiful and very popular flat, angular and natural slate. It is nearly grey when dry, however, when wet it is mainly blue with some purples and grey tones.

Heritage Quartz
14mm

Heritage Quartz gravel features underlying tones of grey overlaid with rusty red, orange and buff.

Black Basalt
10 & 14mm

Black Basalt chippings are a dark grey angular chipping which appears jet black when wet.

Black Ice
14-20mm

Black Ice is an angular, 14-20mm sized chipping, with black and grey stones that deepen in colour when wet.

Green Slate
20 & 40mm

Green Slate is a lovely natural Welsh Slate, which has a mixture of green colours throughout the slate pieces and deepens in colour when wet.

Plum Slate
20 & 40mm

This is a premium Welsh Slate that has a lovely mixture of purple and plum tones when wet. Whereas, when dry it shows a pale grey colour with hints of plum throughout.

Ice Blue
14-20mm

Ice Blue is an angular gravel which has a mixture of pale blue and light grey colour tones. These are supplied washed.

Flamingo
14-20mm

Flamingo is a 14-20mm angular chipping, which is a beautiful mix of pastel pink, cream and grey colours that deepen when wet.

Scottish Pebbles
4-8mm, 8-14mm, 14-20mm, 20-30mm, 30-50mm, 50-80mm, 80-120mm, 180-200mm

Scottish Pebbles are a premium, rounded pebble in grey, brown and red colour tones, which deepen in colour when wet.

Core Drive Gravel Grids

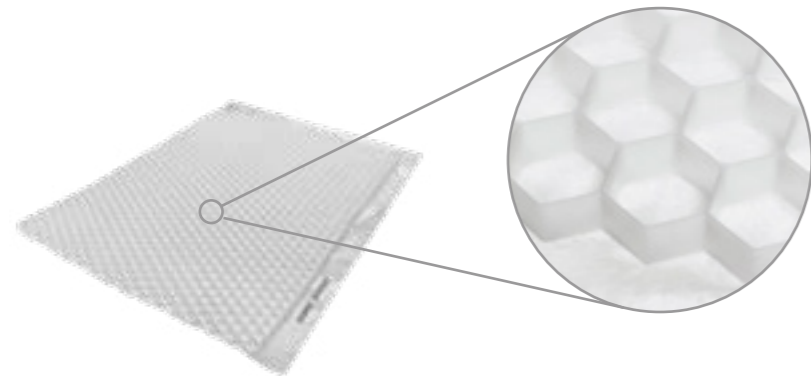

Core Drive Gravel Grids are incredibly easy to install, cost-effective and virtually invisible once filled, Core Drive is unlike any grid on the market. Our grids are specifically designed for different traffic types and site conditions, whether your project is a sloping residential driveway or a busy commercial parking area, Core Drive has got you covered.

Drive Gravel Grid

Single Size Packs	
Colour	Size (mm)
White	1600 x 1200

Thickness: 30mm

Drive Gravel Grid

Drive Gravel Grid Advantages:

- ✓ SuDS Compliant
- ✓ DDA Compliant
- ✓ Eco-Friendly
- ✓ Easy Line Marking
- ✓ Low Cost
- ✓ No Weeds
- ✓ Stabilises Gravel
- ✓ Market Leading Strength

Core Path Gravel Grids

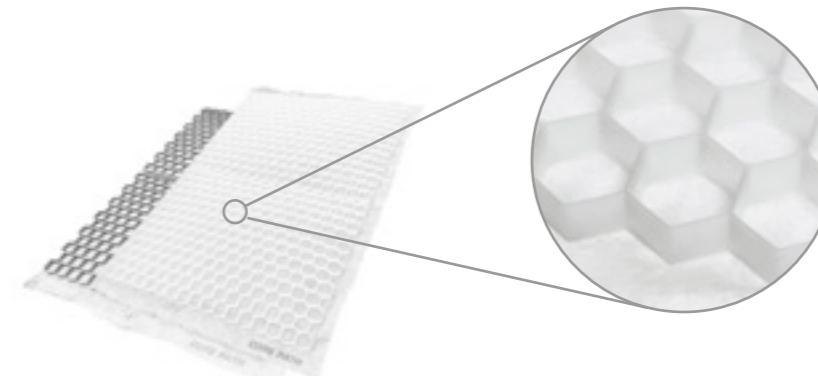

Introducing Core Path Pro, the perfect solution for creating durable and low-maintenance garden paths, public walkways, and other hard-standing surfaces. This gravel grid system is constructed from High-Density Polyethylene (HDPE) and is exceptionally strong and long-lasting. With a low profile of only 20mm, Core Path Pro significantly reduces the amount of gravel required for your project – one tonne of gravel covers an impressive 30m² when used with this grid, resulting in a 50% reduction in consumption.

Path Gravel Grid

Single Size Packs	
Colour	Size (mm)
White	1600 x 800

Thickness: 20mm

Path Gravel Grid

Gravel Grid Advantages:

- ✓ Create a Firm & Stable path
- ✓ Less Gravel Required
- ✓ Quality Weed Membrane
- ✓ DDA Compliant Surface
